Refs:- (1) G.O.Ms.No.3096 Health dated 5-9-1950
(2) Government Health Department, Memorandum No.33172-L./50-6, Health, d/-31-1-1951.

,,,,,,,,,,,,,,,,,,,,,

I am making this representation to Government after full and careful consideration by my Committee and in ~~supersession~~ confirmation of all previous correspondence on the subject, such as letter dated No.42/51 d/- 24-2-1951 from our Hon.Treasurer and the recent letter d/- 7-5-1951 from our Hon.Secretary, both addressed to Government in the Health Department. Accordingly I submit, herewith, a copy of my letter No. 66/51 dated 7-6-51 addressed to the Director of Medical Services, Madras, for favour of urgent and favourable consideration by Government. And for the reasons explained particularly in paras 5 to 7 of the same, I pray that the Government may be pleased to:-

i. transfer back to this Branch immediately our contribution of Rs.98,107-4-6, so that it may be available for works without any formalities whatsoever,

ii. assure us that on our completing the works up to a value of Rs.one lakh and production of our Engineer's certificate

to this effect and that the works have been carried out in accordance with the plans and specifications approved by the Chief Engineer, the Government grant or share of Rs.29,400 will be paid to us in advance to proceed further with and complete items 3 to 11 of the annexure,

extend to this work the provisions of Grant-in-Aid Code and to grant our Engineer's certificate will be adequate,

to confirm that the equipment, etc. as per item 1 of the annexure for which a sum of Rs. 50,600 is reserved from out of the Government grant of Rs. One Lakh, is to be supplied by the Medical Department,

to order that item 2 of the annexure for which the whole original provision of Rs.20,000/- from the Government grant of Rs. One Lakh is reserved intact for laying water (including provision of any additional wells, lighting and drainage including provision of flush lavatory seats or other sanitary fittings, septic tanks, etc. is to be carried out by the Public Works Department at the appropriate time as the buildings near completion,

vi. and to provide a grant of Rs. One Lakh in the budget for 1951-52.

If orders on the above as sought are urgently received, it will enable us to conclude at once the agreement with the Contractor and particularly now during the rainy weather carry out with great advantage earth work and the extensive cutting in laterite rock, which during dry weather will be very difficult and costly.

Yours faithfully,

President,
The Madras Provincial Welfare Fund,
South Kanara District Branch.

i r,

Sub:- Tuberculosis Sanatorium, Mudashedde, South Kanara District.

Ref:- G.O.Ms.No.3096 Health D/- 5-9-1950 P-41-54 (H)
ii. Govt. Health Department Memorandum No.33172-L/ 50-6, Health, dated 31-1-1951. P- 5 2-(H)

.....

I submit, herewith, a statement showing thee essential buildings, etc., approved in the above-cited G.O. They are not specified in the G.O.itself, but are understood to be as detailed in your letter No.22132-10.G.2/50 dated 27-7-50 with the subsequent modifications approved in your letters No.88881-G.2/50-6 & G.2/50-8 dated 26-12-50 and 17-1-51. The items as revised are shown in col.2 of the annexure and the respective provisions therefor in col.3 of the same.

ii. Items 3 to 9 are the essential buildings the construction of which is left to this District Branch under the above G.O. These essential buildings do not include water supply or laying water to the buildings, lighting and drainage including provision of flush lavatory seats or other sanitary fittings, septic tanks, etc. which fall in item 2 of the annexure and are included in the provision of Rs.20,000 for the same.

iii. Item 10 appears to have been omitted through oversight, but its cost will be met separately by this District Branch.

iv. Item 11 formed part of item 2, but is now separated and the cost of Rs.10,000 for the same will be met separately by us for the reasons explained later below. This leaves the original provision of Rs.20,000 for item 2 intact for all the balance work as described therein.

v. It is understood that all the equipment, etc., described in item 1 of the annexure will be arranged for and supplied by the Medical Department and the provision of Rs.50,600 is reserved for the same.

vi. The aggregate cost of all the items 1 to 9 as approved in the G.O. and shown in Col.3 of the annexure is Rs.1,98,107-4-6, out of which a sum of Rs.70,600 is reserved for items 1 & 2 and the balance sum of Rs.1,27,507-4-6 is for iters 3 to 9 which are left to us for execution under the above G.O. The latter figure comprises our contribution of Rs. 98,107-4-6 already remitted to Government and the Government share or grant of Rs.29,400 out of the total grant of Rs. One Lakh promised for the scheme.

2. We had understood that we were at liberty to put up our own designs with a view to economy. Hence our figures of probable cost for items 3 to 9 had originally been very modestly furnished. Later, we felt that we might handsomely provide permanent buildings and adopt for the same the Consulting Architect's designs after modifying the same and reducing the undue thickness of walls and heavy sections of foundations consistent with strength and stability. Yet this puts up the cost a great deal as seen from the figures shown under Col. 4 of the annexure, but we have decided to meet the extra cost. The total cost of the essential buildings as per items 3 to 9 as well as of items 10 & 11 is Rs.1,63,650 which comprises the following:-

Our contribution already remitted to Govt	..	Rs.98,107- 4- 6
Government grant or share	..	" 29,400- -- -
Extra cost which will be met by us	..	" 36,142-11- 6

3. You have been anxious that the work should proceed expeditiously and with this end in view desired the Dist.Medical Officer, South Kanara, to submit monthly progress reports from 5-10-50. Later, in your letter No.88881-G.2/50-8 d/-17-1-51, you have advised us to submit monthly reports furnishing details of work done and expenditure incurred, stating also that the Government grant of Rs. one lakh would lapse if not spent before the end of March 1951. However, we have yet to know how or from whom we can obtain payment for work done. We can do little until at least our own contribution of Rs.98,107-4-6 remitted to Govt. is back with us so that we can utilise that sum without needless formalities. This will enable us to briskly proceed with and complete all the works. There were other difficulties in the way.

ii. On 7-11-1950 we sought the supply of blue print copies of certain drawings from the Consulting Architect. Deferring the supply, he replied in his No.865/50 d/- 11-11-50 that "certain points in regard to the procedure to be adopted in the matter of construction of the work had to be clarified, the designs had also to be approved by Government, the Chief Engineer had addressed Govt. in the matter and that on the receipt of the orders the required number of copies would be supplied". We had also the occasion to address the Chief Engineer himself for supply of certain plans,etc. on 30-11-1950 and yourself in our Treasurer's letter No.24/50 dated 13-12-50. None of these plans arrived. It does not now matter as we have been able to gather what information we wanted though it meant delay.

iii. Desiring to adopt the Consulting Architect's designs for Nurses' and Sub-Assistant Surgeon's Quarters with suitable alterations and modifications effecting considerable economies,the Executive Engineer, South Kanara Division, Mangalore, was addressed on the subject in the middle of November 50, who finding it beyond his powers of sanction forwarded it to the Superintending Engineer, Coimbatore. In order to save time, the Chief Engineer was addressed on the same subject on 30-11-1950 and he approved the proposals only on 2-3-51 in his letter No.3870 PWW/48-48.

iv. Plans and estimates for Rs.36,000 for the Twin Ward Block of 40 beds and for Rs.42,000 for the Administration Block were submitted to you for administrative approval and also simultaneously to the Chief Engineer for technical approval on 28-11-50 and 15-12-50. These plans and estimates were sanctioned and returned by the Chief Engineer with his letter No.3870 PWW/48-48 d/-2-3-51. Your administrative approval has since been accorded in your letter No. 8881/-1-G.2 dt 16-4-51.

V. Plans and estimates for items 5 & 6 have been submitted on 7-5-51 and their sanction is awaited. Those for items 7 to 9 will shortly be submitted.

4. Soon on the receipt of the G.O. cited above, we paid an advance to the Industries Dept. on 30-9-50 and arranged for hand-boring operations on the site after preliminary divining for water. There are no wells on the site nor nearby. Water supply was the first need to be provided before work could start. The Industries Dept. took time over the operations and there was trouble and delay with their tools getting stuck in the holes. However 3 borings were completed after considerable delay. At two of them very suitably located wells of 10' and 12' diameter have since

been dug departmentally, as the tender rates offered for this work were found to be excessive. We have completed the excavation of these two wells now just before the monsoon securing adequate supply of water. The balance work is to be done during the next hot weather.

5. The concluding sentence of the above-cited G.O. does not touch the subject of our contribution of Rs. 98,107-4-6 previously remitted to Government, but only mentions about the grant of Rs. one lakh for the work.

(iv) ii. In accordance with para (iii) of Govt.Memo. dated 31-1-51 cited above, we submitted to the Executive Engineer, South Kanara Dn., Mangalore, on 29-3-51, our bill for the cost of Rs. 1,404-15-0 incurred by us on the boring operations, along with the vouchers. These comprise charges of the Industries Dept.paid to them and those actually incurred on the employment of labour, etc. for the operations. The Executive Engineer when personally met explained that he could not meet the bill, firstly because the estimate for the boring operations had not been technically sanctioned by the Chief Engineer and secondly he had no grant for the work, as he had already surrendered the grant of Rs.one lakh on the ground that the P.W.D. was not to carry out the work. Later in his letter No.509 M.d/-4-4-51 returning the bill with the vouchers, he has merely stated that "in the present set-up of the administration of the work it would be inappropriate for him to make the payment and the Chief Engineer had already addressed the Government to modify the orders regarding payment and orders thereon were awaited". Thus we are in quandary. The expenditure incurred by us on the trial borings remains unrecouped and we have finished the digging of the two wells meeting the cost ourselves.

iii. In view of all the irksome formalities and difficulties involved, we have decided to meet ourselves the cost of Rs.10,000 on item 11 of the annexure (viz.the trial borings and the two wells including their masonry steining, etc.) as also the cost of Rs.2,000 on item 10 of the annexure (Land acquisition for the approach road), so as to leave the original provision of Rs.20,000 intact for item 2. The works detailed therein, viz. laying water including provision of any additional well/s, lighting and drainage including provision of flush lavatory seats or other sanitary fittings, septic tanks, etc., may kindly be arranged to be carried out through the agency of the P.W.D. at the appropriate time. All these items are far too complicated for us and quite beyond our capacity.

6. Adopting the P.W.D. form of agreement and tender

notice as prescribed in the Madras Detailed Standard Specifications of the P.W.D., we called for tenders for the work after obtaining prior approval of the Executive Engineer, P.W.D., South Kanara Division, to the Tender Notice with its schedules. Tenders were received on 30-11-50 and the lowest tendered being suitable was communicated the acceptance of his tender on 4-1-51. But the formal agreement has had to be deferred until well water supply was secured, the position regarding the immediate availability of our own contribution and later of Government grant became clear and our ability to promptly pay the Contractor ourselves every month in accordance with the terms of the contract was made secure. It is not possible to undertake the legal liability to the contractor without money being freely available. In consequence we have been unable to conclude the formal agreement with the contractor. If the bills for work done are to be paid by the Executive Engineer as ordered in para (iii) of the Government Memo cited above, this will alter the whole basis of the contract and we fear we shall have to call for fresh tenders on the new basis. If fresh tenders are called for, apart from the unnecessary expense and the great delay, there is every likelihood of higher rates being tendered causing considerable loss.

ii. Further, we do not propose carrying out the works bit by bit. But we intend rapidly putting in hand all the items 3 to 11 costing in all Rs.1,63,650/- and completing them within a year, as that will save a lot of trouble and expense entailed by the protraction of the work. We are, therefore, most anxious that our contribution of Rs. 98,107-4-6 be returned to us immediately. And we further wish to be assured that when we have utilised this amount, or say the value of work done is Rs. one lakh, the Government grant or share of Rs.29,400 will be paid to us in advance so as to enable us to complete all the items 3 to 11 before the monsoon of 1952, meeting ourselves the extra cost of Rs.36,142-11-6 over and above our previous contribution of Rs. 98,107-4-6.

7. But for G.O. Ms.No.3403 P.H. dated 26-9-1949 and the proposal in para 1(i) of the same, that the buildings were to be constructed by the P.W.D. and the direction in para 2 of the same to the Surgeon-General to collect our contribution, this contribution of Rs.98,107-4-6 would have continued with us. On the issue of G.O.Ms. No.3096 Health dated 5-9-1950 leaving the construction of the essential buildings to us for execution, our contribution should naturally have come back to us. This is a part contribution work left to us for execution, or in other words it is a Grant-in-aid work. In such cases, the grantee's

share remains with the party enabling him to carry out the work without let or hindrance. The formalities start only when payment of Government grant is to be secured. Hence, we request that the Government be moved in the matter and this sum of Rs. 98,107- 4- 6 be transferred to us immediately.

ii. We are unable to agree to the proposition in para (iii) of the Government Memo. cited above, that the bills for work done are to be passed and paid by the Executive Engineer P.W.D. He is bound in this matter by his Code and Audit requirements with which he will have to comply. He will expect us to prepare the bills in the particular manner suiting such needs and we shall find it extremely difficult to follow the procedure as it is altogether beyond us. The Executive Engineer cannot question the rates of the agreements concluded by us with the contractor. It cannot be that he will check-measure the works or have the arithmetical calculations in the measurement books checked in detail in his office. All this formality will be too complicated and onerous and entail considerable delays in payment of bills, unless the Executive Engineer is merely to check the abstract bill as submitted to him without measurement books and pass the bill without questioning the agreement rates accepted by us and pay it after verifying it with the copy of the previous bill paid by him. In any case, we do not wish to be subjected to any such formality whatever in so far as our own contribution of Rs.98,107-4-6 is concerned.

iii. All such procedure seems unnecessary even when we have to draw Government grant. Because we are employing a Retired Assistant Engineer of the P.W.D. as Engineer in charge of the works. He is qualified under the Grant-in-aid Code to certify the value of work done and that the work has been carried out in accordance with the plans and specifications approved by the Chief Engineer, P.W.D. We request that his certificates may please be accepted for the purpose of the payment of the Government grant to us.

iv. We have not the least objection whatever to the supervision of the works by the P.W.D.Officers as laid down in the G.O., because the buildings on completion are to be taken over by Government.

8. Finally, I have to respectfully submit that we are unable to go further ahead or briskly and boldly arrange to put the works in hand at once with a view to complete them all before the monsoon of 1952. And we, therefore, earnestly plead that

the Government be moved and be pleased

i. to transfer back to this Branch immediately our contribution of Rs. 98,107-4-6, so that it may be available for works without any formalities whatsoever,

ii. to assure us that on our completing the works up to a value of Rs. one lakh and production of our Engineer's certificate to this effect and that the works have been carried out in accordance with the plans and specifications approved by the Chief Engineer, the Government grant or share of Rs.29,400 will be paid to us in advance to proceed further with the complete items 3 to 11 of the annexure,

iii. to extend to this work the provisions of Grant-in-Aid Code and to order that for the purpose of our drawing the above Government grant our Engineer's certificate will be adequate,

iv. to confirm that the equipment, etc. as per item 1 of the annexure for which a sum of Rs.50,600 is reserved from out of the Government grant of Rs.one lakh is to be supplied by the Medical Department,

v. to order that item 2 of the annexure for which the whole original provision of Rs.20,000from the Govt. grant of Rs.one lakh is reserved intact for laying water (including provision of any additional well/s) lighting and drainage including provision of flush lavatory seats or other sanitary fittings, septic tanks,etc. is to be carried out by the Public Works Department at the appropriate time as the buildings near completion,

vi. and to provide a grant of Rs.one lakh in the budget for 1951-52.

With the above, we can assure you that we shall complete all the items 3 to 11 of the annexure costing in all Rs.1,63,650/- by the monsoon of 1952.

Yours faithfully,

President,
The Madras Provincial Welfare Fund,
South Kanara District Branch.

Item (4) A sum of Rs.50,600 out of the contribution held in deposit may be reserved for the purchase of equipment which will be arranged for by the Medical Department when the construction of the buildings is nearing completion.

Item (5) There is no objection to reserve the sum of Rs.20,000/- for water and drainage works out of the Government grant.

Item (6) According to G.O.No.3403 PH dated 26-9-49, the Committee should donate Rs. 2,67,607-4-6 and the Government will meet the balance of Rs. 1,23,192-11-6 and in para 2 of G.O. No.3096 Health dated 5-9-50, the Government have stated that they will not provide any additional sum from State Funds towards the construction of the buildings over and above one lakh already sanctioned. In as much as the grant provided for during 1950-51 has not been utilised, this sum may be provided in the Budget Estimate for 1951-52.

Yours faithfully,

P. Annamalai 41

The Secretary to Government,
Health Department, Madras.

Ref: Government Memo No.25860- L-51 1 Health dated 15.6.51 Tuberculosis -South Kanara District Opening of a Tuberculosis Sanatorium at Mudshedde.

I offer the following remarks on the points raised in letter No.66/51 dated 7.6.51 of the President of the Madras Provincial Welfare Fund, South Kanara District Branch.

Items (1) & (3): The Government in their order No.3096 Health dated 5-9-50 have permitted the construction of essential buildings by the Committee subject to the conditions laid down therein. In view of these orders it does not appear necessary to treat the work as a grant-in-aid work and to transfer the sum of Rs.98,107-4-6 to the credit of the Committee. The District Branch of the Madras Provincial Welfare Fund may be asked to pay the balance of its contribution to the Government account.

Item 2. As it is necessary to spend the amount of one lakh provided by Government within the close of the financial year, the Executive Engineer may be instructed to pass the bill for payment without delay. There is no need therefore for the assurance asked for by the Committee.

From the D.M.S., Ref.No.61037-1-G.2. dated 2-7-51.

ORDER Ms. 2844 Health dated 17-8-51.

The President, Madras Provincial Welfare Fund, South Kanara Dt.Branch, has made certain representations to Govt. in regard to the execution of the work of the construction of the T.B. Sanatorium at Mudishedde. The Govt. have considered the representations and proceed to issue the following orders:

2. The Provincial Welfare Fund South Kanara Dt. Branch offered a donation of Rs.267607-4-6 towards the construction of the T.B.Sanatorium, Mudishedde, and the Govt. accepted the offer in G.O.3403 P.H. dated 26-9-49, subject to the conditions specified therein. The construction of the work was also entrusted to the Dt.Branch of the Madras Provincial Welfare Fund, in G.O.3096 Health dated 5-9-50, subject to the conditions laid down therein.

The Madras Provincial Welfare Fund South Kanara Dt. Branch has requested that the work of construction may be treated as a grant-in-aid work and the sum of Rs.98,107-4-6 contributed by the Fund may be transferred to the

Committee/ The Govt. do not approve the proposal. and The M.P.W.F., South Kanara Dt.Branch is requested to remit the balance of its contribution to the Govt. account.

3. (b) The P.W.F. have asked for an assurance from the Govt. that on satisfactory completion of the work by the P.W.F. to the value of Rs. one lakh, the Govt. would pay the Govt. grant or a share of Rs.29,000/- in advance for the construction of certain other items of work. The Govt. consider that there is no need for the assurance asked for as the Govt. consider it necessary to spend the amount of Rs. one lakh provided by Govt. within the close of the financial year.

The C.E. P.W.D.(Genl.) is requested to instruct the Executive Engineer concerned to pass the bills for payment without delay.

4. (c) The Govt. approve the proposal of the M.P.W.F. that a sum of Rs.50,600/- (Rupees fifty thousand and six hundred only) out of the contribution of Rs. one lakh from State funds may be reserved for the purchase of equipment which will be arranged for by the Medical Department when the construction of the buildings is nearing completion.

5. (d) The Govt. approve the M.P.W.F. proposal that a sum of Rs.20,000/- (Rupees Twenty thousand only) out of the Govt. contribution of Rs. one lakh may be reserved for carrying out water and drainage works etc. at the appropriate stage; and

6. (e) As the sum of Rs. one lakh referred to in the G.O.s read above sanctioned from the State funds for the construction of the T.B. Sanatorium has not been utilised, the Govt. sanction the incurring of the expenditure of Rs. one lakh during the current year as suggested by the M.P.W.F., S.Kanara Branch.

The

7. The D.M.S. is requested to submit necessary proposals in due course for additional appropriation of funds to meet the expenditure, ~~x~~ if necessary.

Copy of Memorandum No.33172-L/50-6.Health dated 31-1-51

Sub: Tuberculosis - Construction of a T.B.Sanatorium at Moodishedde, South Kanara District.

Read again: G.O.No.3403 P.H. dated 26-9-49.
G.O.3096 H., dated 5-9-50.

Read also: From the C.E.(Bldgs.) No.3870-PWW/49-37 dated 25-9-50.
From the S.G.No.88881-2-G.2 dated 30-9-50.
From the S.G.No.88881-3-G2 dated 17-10-50.
From the C.E.(Bldgs) No.3870-PWW/49-42 dated 21-12-50.
From the Secy., S.K.Dt.Branch, of M.P.W.F. dated 22-1-51.

With reference to the points raised by the C.E.(Buildings) in his letters cited above in respect of the construction of the Tuberculosis Sanatorium at Moodishedde, South Kanar, he is informed as follows:-

(i) Execution of work: With reference to the orders in paragraph 2(e) of G.O.No.4331 P.H. dated 22-12-48, this work being a part contribution work should be executed under the supervision of the P.W. Department. Such supervision need not be as for regular Government work.

(ii) Plans and estimates: The Government agree to the proposal that the P.W.Department may scrutinise the plans and estimates for the work and accord technical sanction thereto after satisfying themselves that the plans and estimates are in accordance with approved specifications.

(iii) Payment of bills: All payments should be made by t Executive Engineer after passing bills. Such payments should be restricted to the contributions actually credited by the South Kanara District Branch of the Madras Provincial Welfar Fund to the head "XXXIX - Civil Works" plus the Government's part of the expenditure upto Rs. 1 lakh during 1950-51.

(iv) Centage charges: Attention is invited to the ord in G.O.No.2938 P.H. dated 26-8-48 and paragraph 2(e) of G.O No.4331 P.H. dated 22-12-48. With reference to these orde no centage charges should be levied for this work.

Copy of D.O.No.W 4 S.K.31 dated 22/23-5-1951, from Sri T.S.Subramania Iyer, Accountant General, Madras, to Sri S.R. Kaiwar, I.C.S., Secretar to Government, Health Department.

Please refer to your d.o. No.8669.L2/51-5 Health, dated the 12th May 1951.

In the Health Dept. Memo.No.33172.L/50-6, dated the 31st Jan. 1951, it has been clearly laid down that the Public Works Department should scrutinize the plans and estimates for the work and accord technical sanction thereto after satisfying themselves that the plans and estimates are in accordance with the approved specifications and that the work, being a part contribution work, should be executed under the supervision of the Public Works Department. Though it has been mentioned that this supervision need not be as for a regular Government work, it is obvious that the statement in the Chief Engineer's letter of 10th March 1951--

> "As the work is to be executed by a separate agency, the Executive Engineer will have no control over the contractors for the works and will not be clothed with powers to decide the quality of work &c., nor will he have any subordinate in immediate charge of the work for taking measurements day by day of supplies made or work done which may not be susceptible of measurements later on"

is not in keeping with the requirements prescribed by Government in the above quoted Memorandum.

If the Executive Engineer has no powers to decide the quality of work done, the supervision by the P.W.D. ceases to be effective for the purpose for which this requirement has been laid down in the Health Department Memo. dated 31st Jan.1951 and it is not clear on what basis the Executive Engineer will countersign the bills that might be presented. It seems to me that, so long as the work is a joint contribution work and so long as the orders in Health Dept.Memo. of 31st Jan.1951 arenot modified regarding supervision by P.W.D., the present proposal of the Chief Engineer (Mr.T.S.Venkataraman) would not appear to be in order. I suggest that the whole question be reconsidered. Incidentally, it is pointed out that the contribution of Madras Provincial Welfare Fund, S.K., has not been paid up from which to constitute the Fund to be drawn upon for payment of the bills.

G. No 25860/51

Sub: J. B - South Kanara Dt - Mudishedde - Construction of a J.B Sanatorium - Payment of grant

pp 1 to 13 ct

From the President, M.P.W.F, South Kanara Dt Branch, Mangalore
No. 67/51 d. 7-6-51.

pp No 2 to 4

" D.M.S, Ref. No. 61037-1. G2 d. 2-7-51.

Dm Ft G. No 3403 P.H dated 26-9-49, the Govt sanctioned the construction of a J.B Sanatorium at Mudishedde in the South Kanara Dt at a cost of Rs 3,90,800, with the donation of Rs. 2,67,607-4-6 offered by the South Kanara Dt Branch of the Madras Provincial Welfare Fund and the balance of Rs. 123/92-11-6 from State funds and the Subject to certain Specified The Contribution from State funds was reduced to Rs 1 lakh. conditions. Dm Ft G No 3096 Health d. 5.9.50 the Govt agreed to the proposal that the construction of work of the J.B Sanatorium might be left to the South Kanara Dt Branch of the Madras Provincial Welfare Fund. The Secy South Kanara Branch of M.P.W.F was informed that the Govt would not provide any additional sum from State funds for the construction of the buildings over and above the sum of Rs one lakh provided in the Budget for 1950-51 for the purpose.

2. The President, M.P.W.F, South Kanara Dt Branch has asked for the orders of

the Govt. on the items at 'A' on pp 1 and 3 c/b. Attention is invited to the remarks of the D.M.S on p. 24-25 c/b. The points raised at 'A' on pp 1 and 3 c/b are examined below.

Items (1) and (3) on pp 1 and 3 c/b (Transfer of Rs 96,107-4-6 to the M.P.W.F. for work without any formalities and Extension of the provisions of the Grant-in-aid Code to this work)

D.O. No 3096 Health dt. 5-9-50 the Govt. permitted the construction of essential buildings by the Committee subject to the conditions laid down therein. The D.M.S considers that in view of the orders in the G.O. mentioned above it does not seem necessary to treat the work as a grant-in-aid work and to transfer the sum of Rs 96,107-4-6 to the credit of the Committee. He suggests that the Director of Medical Services may be asked to pay the balance of his contribution to the Govt. account. His suggestion may be accepted.

Item 2 on pp 1 and 3 c/b (Govt's assurance for the payment of grant of Rs 29,400 on account)

pp 1 c/b (H)

para 6

para 5*

para 24 c/b

19/59

spend the amount of the
both provided by the Govt with
the close of the financial year
He suggests that the Executive
p.22 c.b Engineer may be instructed
to pass the bills for payment
without delay and that there
is no need therefore for
the assurance asked for by the
by the Commissioner. His suggestion
may be accepted

Item 4 on p.3 c.b

The D.M.S agrees
that a sum of Rs 50,600 out of
p 21 c.b the contribution held in deposit may be
reserved for the purchase of
equipment which will be
arranged for by the Medical
Dept when the construction of
buildings is nearing completion
His view may be agreed to

Item (5) on p.3 c.b

The D.M.S states
that there is no objection to
p.22 c.b reserve the sum of Rs 20,000
for water and drainage works
out of Govt grant. His
view may be agreed to

Item (6) on p.3 c.b

Dr. G.B.No 3096
p.41 (11) Health d. 5.9.50 it has
been pointed out that the
Govt will not provide
any additional sum from State
funds towards the construct

of six buildings over and above
one both already sanctioned
[illegible] in as much as the grant provided
for during 1950-51 has not
been utilised the D.M.S
recommends that this sum
i.e. Rs 1 lakh may be
provided in the Budget
Estimates for 1951-52. This
may be agreed to. Since
there is no provision in the
current year budget, funds
will have to be provided either
by re-appropriation of funds
if savings are available
or by a supplementary grant
if no savings are available
available. Finance may
advise.

P.W.D. 3. Subject to
dept./finance may be
for remarks.

The recommendations of the
D.M.S. at ff 24-25 ~~of~~ may
be accepted.

Spoken to Secy. A
file order is submitted for
approval.
